## EXPERIENCE

---

**Creator Stats** May 2015 - December 2016  
*Founding member, responsible for product design and communication* Valencia, Spain  
*During my time at Creator Stats I worked not only with technologies like **php**, **html** and **css** but also as responsible and decision maker of the company itself.*

- Founding member of the company with a 30% stake.
- Responsible for communication being the speaker in the main public presentations of the company. For example Google Campus Madrid keynote can be found here <https://www.youtube.com/watch?v=Pm9sp8ntEAK>.

**University of Oviedo** October 2017 - February 2018  
*Software Intern* Asturias, Spain

- Technical assistance for professors at the Faculty of Law.
- Sound and video assistance during Faculty of Law events.

**WESO Research Group, University of Oviedo** October 2018 - May 2019  
*Partial time researcher* Asturias, Spain

- Lead architect and developer of a search engine over an unification of the SNOMED CT and ICD terminologies.
- Project financed by IZERTIS S.A.

**Federación de Concejos de Asturias** June 2019 - August 2019  
*Full time beach lifeguard* Carreño, Asturias, Spain

- Bathers surveillance.
- Aquatic assistance.
- Healthcare assistance.
- Boat patrols.

**WESO Research Group, University of Oviedo***Full time researcher*

September 2019 - Present

*Asturias, Spain*

- Project manager of the developer team that carried out the integration of SOLID technologies in to a telemedicine application. (Financed by IZERTIS S.A.)
- Core team and developer at the ASIO - Hércules European project. This project was about creating a management system based on semantic technologies for the Spanish research system. (Financed by the European Union and CRUE)
- Main Engineer and Developer for the ShEx-Lite compiler. A compiler for Shape Expressions Language.

**TECHNICAL STRENGTHS**

**JOU 2020***February 2020*

Speaker at the engineering study table II at the University Orientation Day.

**RECOMMENDATIONS****Alejandro Fernández - CEO at Creator Stats***November 2016*

Guillermo is one of those guys you always want to have on your team. At 19, he was crazy enough to found a company with me, and while we were both out of our comfort zones, he handled it way better than me.

Whether it's about public speaking or presentations, development or project management, Guillermo asks the right questions – and that's essentially what a company needs to grow and move forward.
